Percentage: 76.16%

EXPERIENCE

Software Developer Intern | TAP Academy Aug 2026 – Present
Bengaluru, India

- Training in Java full-stack development covering Core Java, SQL, HTML, CSS and JavaScript.
- Developed web pages using HTML, CSS and JavaScript and connected them to backend and database concepts.
- Wrote SQL queries to create, retrieve, update and manage data in relational databases.
- Practiced version control using Git and GitHub.

KEY PROJECT

Fish Selling & Buying Portal

Technologies: PHP, HTML, CSS, JavaScript, Bootstrap, MySQL, Xampp

- Developed a web-based application for buying and selling fish online.
- Designed responsive user interfaces using HTML, CSS, Bootstrap, and JavaScript.
- Implemented customer, product, order, payment, and inventory management modules.
- Integrated MySQL database for efficient data storage and retrieval.
- Reduced manual work by digitizing the buying and selling process.
